

Appl. No. 10/062,950

REMARKS

The allowance of claims 1 and 2 is noted with appreciation. Claims 3-5 have been cancelled and dependent claim 6 has been added to define an important secondary feature.

It is noted that claims 4 and 5 were rejected under 35 U.S.C. 112, first paragraph for the reasons that Figures 3 and 4 of the specification do not disclose power supply elements on both sides of the circuit board 80. It is respectfully pointed out that the specification, page 4, lines 4-18, describes the larger circuit components that are mounted on the top surface of the circuit board, and then refers generally to the smaller components that are mounted on the bottom surface, and shown in Figure 4. This illustrates the principle of this feature, without specifying which smaller elements are shown in Figure 4.

Reconsideration and allowance are respectfully requested.

Should there be any outstanding matters that need to be resolved in the present application, the Examiner is respectfully requested to contact Thomas M. Small (Reg. No. 20,379) at the telephone number of the undersigned below, to conduct an interview in an effort to expedite prosecution in connection with the present application.

Appl. No. 10/062,950

If necessary, the Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any overpayment to Deposit Account No. 02-2448 for any additional fees required under 37 C.F.R. §§ 1.16 or 1.17; particularly, extension of time fees.
